MPSA

MANHASSET'S INDEPENDENT VOICE FOR EDUCATIONAL EXCELLENCE AND FISCAL SANITY

*MPSA congratulates the children, parents, teachers and administrators of our town for opting IN on State Tests. Only 57% of eligible students In Nassau and Suffolk Counties sat for the State English Language Arts Test but a whopping 96.4% of eligible Manhasset students took the test. Apparently our community understands the importance of a deep and broad curriculum grounded in critical thinking skills. We demand the finest teaching at the highest appropriate level to challenge every child. We understand that effective evaluation is necessary to determine if students are being taught properly and both teacher and student benefit when areas of strength and weakness are exposed so corrections can be made.

Over the years, MPSA has been critical of the School Board and Administration on many counts primarily financial in nature or primarily wasteful spending where tax dollars are taken from the children to fund administrators and lavish retirement packages.*

*They got it right this time and we congratulate them. *

*MPSA Policy is all communications must go through its web site. Most contributors to MPSA prefer to remain anonymous, which MPSA respects. As agrassroots organization we rely on you to forward our emails to family andfriends. *
